ARCHITECTURE & DEPLOYED INFRASTRUCTURE

- **Operational Automation & B2B Architecture:** Conducted comprehensive workflow audits and designed specialized, automated AI solutions for physical retail locations and local restaurants, translating complex LLM capabilities into direct brick-and-mortar ROI.
- **Specialized Accessibility Infrastructure:** Engineered *WaVio* and *WaveSynch*, integrating advanced touchless, gesture-controlled media designed to provide seamless, zero-touch tablet navigation for users with limited mobility.
- **Full-Cycle App Deployment & Utility Systems:** Built and launched mobile applications (including *Watz 4 Dinner?* and the *Hydro-Scan* hydration tracker), managing the entire pipeline from local code and targeted utility loops to navigating strict Google Play Console integrity protocols.
- **API Integration & Ecosystems:** Managed the *arch-tool* repository utilizing custom AI APIs, and developed scalable production bibles and agentic workflows to support diverse digital ecosystems.

PROFESSIONAL EXPERIENCE

AI Solutions Architect

[Month, Year] – Present

Independent Consulting

- **Workflow Optimization:** Audit physical business operations to identify bottlenecks, pitching and mapping custom AI-driven solutions to reduce manual loops and increase efficiency.
- **Agentic Infrastructure:** Design and deploy specialized AI "coaches" and automated systems, establishing the "Darden Grade" standard of bridging machine intelligence with human operational trust.

Independent Contractor / Logistics

[Month, Year] – [Month, Year]

[Company Name]

- **Supply Chain & Operations:** [Insert bullet point detailing your management of physical logistics, proving your foundation in mapping real-world workflows.]
- **Process Execution:** [Insert bullet point highlighting efficiency, timing, or coordination in your independent contracting work.]

SYSTEM UPGRADES & CERTIFICATIONS

- **Google AI Professional Certificate:** Mastered and completed all seven required architectural courses within a rigorous 7-day sprint.
